

CLEANING SOLUTIONS

TOOLS

IPC

A leading player
in the professional cleaning market.

#01

#1 ITALIAN MANUFACTURER

IPC is Italy's #1 manufacturer of equipment for professional cleaning, ranking third in the professional cleaning market in Europe.

#02

WIDE PORTFOLIO

IPC provides a complete range of professional equipment including mops and frames, professional trolleys, window cleaning equipment.

#03

GLOBAL DISTRIBUTION

Distributed in over 120 countries. Nine owned international subsidiaries, focused on sales and aftersales.

#04

ENVIRONMENTALLY FRIENDLY

The group, focused on sustainable technologies, has developed a product line which uses recycled plastic thus preserving the environment and its unique and precious resources.

IPC IS ALWAYS WITH YOU ON PC, TABLET & SMARTPHONE

DRY CLEANING

MINIMIZING THE SPREAD OF DUST IN THE AIR.

The activity can be distinguished between:
DRY or **WET SWEEPING**

01

FOR DRY SWEEPING

cotton or acrylic dust mops replacements of various sizes are used with suitable articulated frames.

02

FOR WET SWEEPING

a frame, usually trapezoidal, is used with disposables impregnated (by mineral oils) cloth or with a cotton gauze.

THE RECOMMENDED TECHNIQUE

is to move back toward the entrance with "S" movements

It is recommended to use one gauze at a time, replacing it if necessary (depending on the amount of dirt, no more than 40/60 m²) and without lifting the tool during the sweeping operation.

WASHING & DISINFECTION

FOR SURFACES MANUAL WASHING OPERATIONS

both on floors and walls:

01

PLASTIC FRAME

with flat mop replacement

02

ALUMINUM OR PLASTIC FRAME WITH HOOK AND LOOP FASTENERS AND FLAT MOP REPLACEMENT

(with hook and loop fasteners backing)

03

MOP HOLDER

THE RECOMMENDED TECHNIQUE

is to move back toward the entrance with "S" movements

DURING WASHING, THE FLAT MOP OR THE KENTUCKY MOP ARE RINSED FREQUENTLY

(the frequency depending on the floor and type of dirt) and wringed out in the wringer.

IN THE CASE OF DISINFECTION or BACTERIAL CONTAMINATION RISK, THE FLAT MOPS TO BE equipped with pockets or hook and loop fasteners backing and must be replaced in every room or after 20/25 m².

WHEN DISINFECTANTS ARE USED, MAKE SURE THAT THE FLOOR REMAINS WET FOR A FEW MINUTES (in any case, follow the instructions on the product label).

TYPE OF REPLACEMENT:
Mops with hook and loop fasteners and disposables

CLEANING PROCESS:
Washing & Disinfection

DETAILS

- **CLEANS ANYWHERE:** reaches the most unreachable areas thanks to its sliding system "LOCK & UNLOCK"
- **INNOVATIVE:** joint blocking allows also a comfortable cleaning of vertical surfaces
- **ERGONOMIC:** the frame is made of aluminum, extremely light material and therefore particularly easy to handle. Additionally, the sliding joint allows to clean all those points otherwise requiring a physical strain.
- **MAXIMUM HYGIENE AND CLEANLINESS:** mops are removable by foot

NEW

SAFE T

The SAFE T frame is the innovative, practical, hygienic and fast cleaning system suitable to the use of flat mop with pockets. Thanks to the new "no-touch" release system, the operator never comes into contact with the used mops and releases it directly in the waste container by operating the special plastic handle.

SAFE T

CODE	DIGIT	CM	UNITS BOX
ATPA00214	IP27	40	1

PATENT PENDING

FEATURES

- **NO TOUCH:** no contact with the used part
- **HYGIENIC:** no risk of bacterial contamination
- **ERGONOMIC:** the operator does not bend down to position the clean spare nor to collect the used spare while always maintaining a correct posture
- **INSTANT:** thanks to the release system quick "no-touch" replacement of the used part takes very little time.
- **COMPACT:** thanks to the telescopic handle it can also be transported in most means small as well as making it space-saving the packaging.
- **ECOLOGICAL:** all materials with which it is made are recyclable.

The code ATPA00214 is inclusive of only frame. The handle is separate.

WHAT IS MICROFIBER?

Microfibre is a synthetic material composed of two polymers. When joined together in different quantity percentages, these polymers develop into a single thread which is thin and highly resistant.

Polyester electrostatic features allow the microfibre to catch and retain all types of dust.

Polyamide has great absorbing power and, together with water use, eases dirt removal and the degreasing of surfaces without leaving any marks or stains.

Microfiber specific uniqueness is its **EXTREMELY THIN STRUCTURE** and **HIGH DENSITY**. These characteristics provide the microfibre with its **MECHANICAL STRENGTH** and its **POWERFUL ABSORBING POWER**.

THICKNESS

Microfiber is twice as thin as silk, three times finer than cotton having a density equal to or less than 1 decitex*.

Due to its thinness, **THE MICROFIBER THREAD ENTERS DEEP INTO CRACKS OF THE MOST IRREGULAR SURFACES,**

Able to remove even the smallest particles of dirt and dust.

* the Decitex "dtex" corresponds to 1 g over 10 km and indicates how many meters of a certain quantity are contained in one gram of weight.

THICKNESS OF THE YARNS:

- **POLYPRO MONOFILAMENT** (46 dtex) Ø 80 µm
- **HUMAN HAIR** (51 dtex) Ø 70 µm
- **POLYESTER MONOFILAMENT** (44 dtex) Ø 64 µm
- **WOOL** (26 dtex) Ø 50 µm
- **CLASSIC POLYESTER** (4 dtex) Ø 19 µm
- **COTTON** (3,2 dtex) Ø 16,5 µm
- **SILK** (1,17 dtex) Ø 12,9 µm
- **POLYESTER MICROFIBER** (0,78 dtex) Ø 8,5 µm
- **POLYESTER MICROFIBER** (0,56 dtex) Ø 7,2 µm
- **POLYESTER MICROFIBER** (0,30 dtex) Ø 5,3 µm
- **MICROFIBER 80/20** (0,20 dtex) Ø 4,4 µm
- **MICROFIBER 70/30** (0,15 dtex) Ø 3,8 µm
- **SPIDER SILK** (0,14 dtex) Ø 3,6 µm

If compared with classic fibers, the microfibre has a higher **MECHANICAL CAPACITY** on dirt removal: **ITS HIGH DENSITY ALLOWS IT TO REMOVE ANY TYPE OF DIRT.**

DENSITY

THE HIGHER THE DENSITY, THE HIGHER THE ABSORBING CAPACITY.

The fibers number per square centimeter denotes a microfibre's excellent cleaning performance.

From 100.000 to 250.000 fibers, this high number of fibers reflects high quality and high performances.

The weaving of the microfibre creates a network of free space, **AN EXTENSIVE NETWORK**, whose density allows it to absorb superficial dirt faster.

Classic Fiber

Microfiber

BENEFITS

CLEANING

Very strong cleaning power and highly effective on micro dirt **even without detergents.**

SAVING

Saves time and labor (minimum 30%) thanks to its extreme lightness and cleaning ability. **Excellent quality/price ratio.**

USE

It can be used on all surfaces **even those that are more delicate.**

LONG LASTING

Microfibre can be **regenerated several times** with a simple washing (manual or in the washing machine) keeping its characteristics unaltered.

RESULT

Very absorbent compared to traditional fibers and dries quickly.

ENVIRONMENT

Saving water and quantity of chemical product, **reducing the environmental impact.**

TIPS LAUNDERING INSTRUCTIONS

01 WASH AT HIGH TEMPERATURE

[194° F / 90° C if requested].

02 WASH WITH OTHER MICROFIBER PRODUCTS.

For best results keep them separate from other textiles.

03 DO NOT USE BLEACH

as it may shorten fibers life.

04 DO NOT USE FABRIC SOFTNER

as it tends to take away the positive charge.

05 DO NOT USE CHLORINE

06 TUMBLE DRY IF NECESSARY

But if possible leave it dry naturally.

07 "CONTROLLED" ENVIRONMENTAL IMPACT

Also available microfibre coming from post-consumer PET recycling (Re-Mop).

LOOP ECL

EcolabelUE is the European Union ecological quality label that, based on a system of scientific selective criteria, certifies the low environmental impact of the product throughout the entire life cycle.

BY CHOOSING ECOLABEL YOU ARE HELPING MINIMISE THE USE OF HARMFUL SUBSTANCES.

LOOP ECL

100% Polyester

White closed loop micro-fibre captures and traps more dirt in the fabric thereby preventing the particulate from being released. The capillarity and density of the fibres give the product high absorbency. It can be used to clean floors, both damp and wet, and it is recommended for washing and disinfection with pre-soaked systems. Supports in H&L tear present with six different colors to differentiate the areas of use.

ONLY SCRUB

20% Polyester
80% Polyamide

Black abrasive microfibre suitable for removing encrusted dirt with a double passage action: abrasive and absorbent with the other fringe.
Recommended for non-slip surfaces and structured floors both for spot and deep cleaning.
Excellent smoothness on all types of floor and easy to rinse.

WHAT IS TRIOMOP?

IPC designs and produces cleaning solutions based on the consumers real needs, solutions granting extraordinary results.

TRIOMOP, THE NEW PATENT MOP REPLACEMENT

allows the user to perform three operations using just one mop which is divided into three sections.

Extremely easy and economic, Triomop is made of 3 sides of different materials (microfibers or cotton) to meet different requirements and result levels.

By varying the materials of the mop replacement, i.e. microfiber and cottonpolyester (open-end or looped), the mop washes and dries "simultaneously".

**BY USING ONLY ONE MOP
YOU CAN COVER THREE TIMES
THE SURFACE,
INCREASING ITS VERSATILITY.**

ADVANTAGES

- **EXCELLENT CLEANING RESULTS**
in removing both loose and attached dirt
- **VERY HIGH COVERAGE**
in terms of surface area (more than 40 m²)
- **UNIFORM DISTRIBUTION**
of detergents and reduced drying time
- **ERGONOMIC**
lightweight for a smooth operation
- **UNIVERSAL**
adaptable to all mop frames currently on the market
- **ENVIRONMENTALLY FRIENDLY**
an efficient mop reduces detergent use with better results
- **EXCELLENT PRICE-QUALITY RATIO**
essentially, 3 mops for the price of 2

TYPES and MEASUREMENTS

- **WITH POCKETS (40X13 - 50X17 CM)**
- **WITH HOOK AND LOOP FASTENERS (40X13 CM)**

(Mops of any personalized size or measurements are available upon request)

TESTED BY:

FIGR Istituto di Ricerca e di Controllo per Facility Management GmbH

HOW TO USE TRIOMOP?

SIDE C

SIDE B

SIDE A

METHOD OF USE 1

(for normal cleaning operations)

PHASE 1

During the cleaning process, side A of the mop ensures a greater degree of contact between the mop and the surface to be cleaned, allowing a more effective collection of dirt. At the same time, part B (microfiber cloth) collects dirt residue while absorbing both the cleaning product and the excess of moisture.

PHASE 2

After folding back side B, the cleaning procedure continues by refinishing the surface using side C, leaving the floor perfectly dry and streak-free.

METHOD OF USE 2

(cleaning particularly dirty surfaces)

PHASE 1

Start with the mop in a folded position so that only side C is used. Proceed with cleaning until the entire surface to be cleaned has been covered.

PHASE 2

Reposition the mop replacement by moving the handle upward, lift the frame and then push the mop to the floor so that both sides A and B are being used.

In addition to the cleaning performed by section A, part B (microfiber cloth) collects dirt residue while absorbing both the cleaning product and excess moisture.

CURVY

cleaning without efforts

CURVY

Curvy is the innovative ultra-fast floor cleaning system that makes cleaning faster, more ergonomic and more efficient.

The speed, ergonomics, lightness and sturdiness that feature Curvy, make it an essential tool for each operator.

Ergonomic

With the intuitive natural **S-shaped motion** of Curvy, the rotation of the wrist and arm is no more required and this allows to drastically reduce the strain placed upon the operator's shoulders, arms and wrists, otherwise present in traditional equipment, limiting the **Repetitive Strain Injuries (R.S.I.)**.

Curvy ensures the operator to adopt a correct posture and contributes to his well-being.

Available in two models:

- 01. Telescopic handle version
- 02. Three-pieces handle version

01. TELESCOPIC HANDLE

02. THREE-PIECES HANDLE

CLOTHS & SPONGES

Created for the “cleaning professional team” and not only, the “cloths & sponges line” consists in a wide range of high quality and professional products, satisfying many and different customers’ needs.

CLOTHS

BENEFITS

- **IDEAL FOR EVERY TYPE OF SURFACES SUCH AS FOR EXAMPLE REFLECTING OR ROUGH ONES.**

RANGE

The line of products has been split into 5 categories:

- **MICROFIBER**
- **MULTI - PURPOSE**
- **FLOORS**
- **WINDOWS**
- **COMPOSTABLE**
- **SPONGES**

METHOD OF USE

PHASE 1

Choose the color of the cloth according to the cleaning operation and area.

Folding the cloth in 4 sections obtaining 8 damp surfaces in order to use the most of it.

PHASE 2

Spray the solution on the cloth.

Humidify the entire surface of the cloth, both sides.

IT IS PREFERABLY spraying the solution directly on the cloth and not on the surface (unless there are special stains).

At the end, wash the clothes and put them to dry.

MICROFIBRE CLOTHS SHOULD BE WASHED IN THE WASHING MACHINE AT HIGH TEMPERATURE WITH THE APPROPRIATE CLEANER.

MICRO SILVER

Various preventative measures based primarily on cleaning and disinfection operations are put into effect in order to limit the risk of bacteria cross-contamination and the spreading of infection.

While these methods are effective in reducing risk, their effect is only temporary and the formation of colonies of bacteria remains a real threat. In this context, antimicrobial materials have recently been introduced - a real innovation in both the prevention and management of risk situations in areas with bacteria contamination risk.

WHAT IT IS

MICRO SILVER is a microfiber cloth treated with an antimicrobial material based upon silver ion nanotechnology, a method new to the cleaning sector, but with amazing potential.

HOW IT WORKS

The silver ions have a strong oxidizing power: they destroy bacteria and fungi by oxidizing the cellular membrane and inhibiting the development of pathogens, thus limiting the transfer of bacteria from one area to another.

RESULTS

This method guarantees the nearly complete destruction of all bacteria trapped within the cloth after 10 minutes. Its antibacterial qualities remain effective, even after 500 washes.

CHARACTERISTICS

COMPOSITION:

80% polyester,
20% polyamide

WEIGHT:

308 gr/sqm

COLORS:

blue
red
yellow
green

PACKAGING:

individually wrapped,
50 pieces per carton

BENEFITS

- **ECOLOGICAL**
eliminates 95% of germs/ bacteria, with great saving of chemical products
- **SAFE**
presents no danger to the user thanks to the harmlessness of silver; no risk of irritation or allergy upon contact with skin
- **EFFECTIVE IN 10 MINUTES KILLS GERMS/ BACTERIA**
thereby drastically reducing bacterial cross-contamination
- **PRICE EXCELLENT PRICE-QUALITY RATIO**
- **PRODUCT LIFE**
Bacterial treatment lasts up to 500 washes (at high temperature)
- **LONG LIFE OF CLOTH**

TEST

Effectiveness tests were conducted for the following pathogens:

BACTERIA:

Test report 1: **STAPHYLOCOCCUS AUREUS**
Test report 2: **PSEUDOMONAS AERUGINOSA**
Test report 3: **KLEBSIELLA PNEUMONIA**
Test report 4: **ESCHERICHIA COLI**
Test report 5: **SALMONELLA**

FUNGI:

Test report 6: **ASPERGILLUS FUMIGATUS**
Test report 7: **PENICILLIUM NIDULANS**

WASTE COLLECTION RANGE

LINEN

LINEN is a line of trolleys designed and built specifically for the collection of dirty linen which can be also used for waste collection.

LINEN is ideally suited in healthcare sector thanks to the painting metal frame or in the hospitality industry and community.

The main characteristic is the modularity: each trolley, mounted on 4 rubber wheels Ø 80 mm. (nylon fork) and bumpers, is complete with a foot operated mechanism to open the lid for maximum hygiene and can be easily coupled to another equal with 2 screws, to form combinations suited to meet any collection need.

The cover, as the bag (capacity 70 lt., in plastic canvas or polyester for washing) resting on polypropylene plate for maximum stability, is available in different colors.

ETA / BETA

ETA/BETA is the waste collection line entirely made of polypropylene with aluminum center support for maximum strength and durability, practical even for outdoor use or in areas with high humidity.

With a 120 lt. polypropylene bag support completed with fixing bag, pushing/towing fiberglass handle, 45 mm. aluminum support, Ø 175 mm. rubber wheels (polypropylene fork) and feet, ETA is used as a fixed container for collection; BETA is completed with Ø 80 mm. wheels to be used as a traditional trolley.

They are available in gray, blue or white (FOOD line) for food industry related companies. Even the lid is available in different colors (blue, red, yellow, green, gray and white) for differentiated garbage collection.

ETA/BETA is made with non-toxic, non-hazardous and **100% RECYCLABLE PLASTICS (POLYPROPYLENE, ALUMINUM, FIBERGLASS, NYLON)**. With this products, IPC is showing once again its commitment to the sustainability requirements and its commitment to follow the HACCP plans.

CLEANING TROLLEYS RANGE

MODULARITY SOLUTIONS FOR ALL NEEDS

Brix trolleys range is the ideal solution for all cleaning applications.

Black is Green trolleys combine the advantages of Brix modularity with the environmental benefits of recycled plastic.

KINETIC WRINGER

Kinetic is the wringer of the future, where technology meets design for an improved operator experience. In fact, with this single tool, Kinetic delivers the best performance and maximum well-being for the operator.

MCS
MULTIFUNCTION
CONTROL
SYSTEM

NEW MULTIFUNCTION CONTROL SYSTEM.

The innovative patent pending Multifunction Control System allows the operator to select the right level of mop wringing, according to the surface and type of washing required, maximising the water used.

HIGH

MEDIUM

LOW

EDT
ERGONOMIC
DESIGN
TOOL

DESIGNED AROUND THE USER.

The ergonomic handle with its 360° free rotation system and working angle, allows the operator to keep their correct posture and work with less effort.

For the version with Kinetic Plus wringer of all the trolleys in the catalogue (except Brix trolleys) it will be to put the number "5" as a fifth position in the code (after CARR or SECC). Example: CARR00038 with Kinetic Plus wringer will become CARR50038

CLEANING TROLLEYS RANGE /

MINI WASHING TROLLEYS RANGE

TROLLEYS WITH WRINGER

PUSHING HANDLE

WRINGER

(vertical with jaws, side press or roller type) inserted into the red bucket

GREY BUCKET

for the cleaning solution

RED BUCKET

for the dirty recovery water

FRAME

with wheels and bumpers

USING THE DOUBLE BUCKET FEATURES

avoids the dirty mop/fringe to be wringed into the clean solution bucket.

A variant of this trolley is the **SINGLE BUCKET** on wheels trolley. As the word, the single bucket on wheels is simply a bucket (of consistent thickness) on which the wheels are screwed directly on and where to put the wringer, without chassis.

Recently, the single bucket on wheels trolley has **EVOLVED INTO A DOUBLE SECTION** for an effective separation of dirty water from clean one and often well equipped with a drain plug in order to easily empty the dirty water.

THE FREQUENCY OF THE CHANGE DEPENDS ON THE FLOOR SOILING.

METHOD OF USE

PHASE 1

Fill the grey bucket with water up to 2/3, fill the red bucket with water up to 1/3; pour into the blue bucket the correct dose as recommended on the chemical label.

PHASE 2

Soak the mop into the blue bucket to absorb the solution.

PHASE 3

Introduce mop in the wringer and slightly wring it.

PHASE 4

Proceed with the cleaning operation on the floor with the mop, making sure it adheres well to the surface, walking backwards with "S" shape movements.

PHASE 5

Soak the mop into the red bucket, to dilute the accumulated dirt.

PHASE 6

Wring the mop to eliminate as much as possible water and dirt, which will be deposited in the red bucket.

PHASE 7

Dip the mop into the blue bucket to absorb a sufficient amount of solution and repeat cleaning operations, starting from **STEP 4**.

BRIX 2.0

THE EVOLUTION

**DESIGNED TO BE RESISTANT,
EASY TO USE, STABLE AND DURABLE.**

NEW FEATURES

- 01. Ø 125 MM WHEELS**
 - ▶ EXTRA SMOOTHNESS, MAXIMUM DIRECTIONALITY AND QUIETNESS
- 02. REINFORCED BASE**
 - ▶ HIGH STRENGTH AND LONG LASTING QUALITY
- 03. NEW WHEEL FASTENING SYSTEM**
 - ▶ IMPROVED STRONGNESS AND SIMPLIFIED REPLACEMENT OPERATIONS
- 04. REINFORCED AND NON-MARKING BUMPERS**
 - ▶ TO AVOID SCRATCHES AND WALLS DAMAGES
- 05. IMPROVED DOORS**
 - ▶ TO GUARANTEE SAFETY, SOLIDITY AND ROBUSTNESS TO THE ENTIRE TROLLEY, SAFEGUARDING THE CONTENTS
- 06. STRENGTHENED BAG SUPPORT**
 - ▶ FOR BETTER MANEUVERABILITY AND DIRECTIONALITY EVEN WHEN LOADED
- 07. FOLDING BAG SUPPORT**
 - ▶ FOR AN EASIER STORAGE EVEN IN LUMBER ROOMS
- 08. "LID-STOP" SYSTEM**
 - ▶ IS THE NEW IPC SOLUTION TO LIMIT THE LID'S OPENING UP TO 75° (COMPARED TO THE 100° OF THE PREVIOUS VERSION)
- 09. NEW REINFORCED COVERBAG**
 - ▶ FOR A GREATER STRUCTURAL SOLIDITY

CLEANING TROLLEYS RANGE /

BLACK IS GREEN™ RANGE

EXTREME MODULARITY FOR ALL NEEDS

BLACK
IS
GREEN™

UP TO 100% RECYCLED PLASTIC

Our designers have developed an innovative and fully equipped product range ideal for professional cleaning.

The certification of recycled plastic content in our products is a consistent consequence of transparent documentation and high control of supply chain, processing and production of our products.

Through the IPC exclusive black is green technology, these new eco-friendly products have been created with high quality recycled plastic, promoting sustainable development and environmental protection.

HOW TO KNOW THE CONTENT OF RECYCLED PLASTIC

The percentage of recycled plastic can vary from product to product or according to its configuration. The recycled plastic content in Black is Green IPC products can vary from a minimum of 15% to a maximum of 100%. It is possible to request documentation on the recycled plastic content indicating the specific product of interest.

BENEFITS

- 01 Black is Green TM recycled plastic is a raw material made of the best and strictly selected plastic waste. Black is Green TM is the result of an innovative process which guarantees the features of the brand new and high quality plastic, in the total respect of the environment
- 02 Recycled plastic produces no waste, it is recyclable and in compliance with RoHS and REACH guidelines
- 03 The minimum content of recycled plastic in the products and the production process of the "Black is Green" plastic are certified by a third party, in compliance with international regulations
- 04 The use of recycled plastic content in cleaning products is recognized in public tenders as a rewarding green requirement

PT

The new PT (Pre-Treated) trolleys range, made in recycled plastic in the new grey colour (RAL 7044), has been specifically designed to combine ease of use and attention to the operators' safety.

The two buckets dedicated to the preparation and transportation of the mop detergent solution impregnation in one and the storage of dirty mops in the other, permit to avoid all risks of contamination.

Designed to be managed in both narrow and large areas in the respect of sanitary protocols. Equipped with dedicated accessories for operator safety, glove holders and liquid dispenser easy to reach for frequent hand protection.

CLEANING TROLLEYS RANGE / **BRIX**

MANY MODULES, ENDLESS VERSIONS

BAG SUPPORT

120 l, 2x70 l
or 3x40 l
bag support with lid.

COLUMNS

Available in 2 columns (2 or 3 shelves), 1 column (2 or 3 shelves) or Light version.

9 LT. TRAY WITH LID

Tray for tools/mops.

PT SYSTEM

Double bucket 22 l red & blue for washing and disinfection.

DOUBLE BUCKET WITH WRINGER

Double bucket 2x15 l with 3 different wringers available.

Main feature

MODULARITY

Each Brix can be customized and adapted to meet the different user's needs. You can choose between 4 basic structures adding afterward different modules. In a few minutes you can configure your Brix!

Details

01

- **NO BRIX IS THE SAME AS ANOTHER!**
Each Brix can be customised by different components, colors, logos, ecc.
- **BRIX IS A TRULY MODERN SOLUTION**
because it can be configured by the end user.
- **NO SPECIFIC SKILLS OR SPECIAL TOOLS**
are required to assemble your Brix

Trolleys

02

BRIX TROLLEYS RANGE

WASHING TROLLEYS

PT SYSTEM

PRE-TREAT MOPS CLEANING SYSTEM

The IPC's PT (pre-treat) System is a cleaning and sanitisation system which revolutionizes the manual floor cleaning concept by using pre-treat looped end yarn microfibre mops.

With this cleaning system the mops are prepared at least 4 hours beforehand, by impregnating them with a solution of water and detergent making them ready to be used.

MOP PREPARATION

PHASE 1

Place the 20 microfibre mops to treat in the blue 22 lt. bucket, being sure the bucket is perfectly clean and odourless.

PHASE 2

Pour the water and detergent solution. Over the mops in the correct quantity. For 20 mops, it is usually enough 1,5 lt. of solution.

PHASE 3

Close the 22 lt. bucket with the lid. Turn the 22 lt. bucket containing the clean mops and the detergent solution upside down and leave the mop in the bucket for at least 4 hours.

In this way all the mops WILL BE impregnated by osmosis.

BENEFITS

- **REDUCES WORKING TIMES**

as the mops are ready to be used and the operator does not have to fill buckets, wring mops or dilute products during cleaning.

- **SPEEDS UP**

any type of manual cleaning of floors etc.

- **EASY TO USE:**

the operator has mops ready to be used and once he arrives on site with the service trolley he can start cleaning straight away using a mop for each room.

- **MOPS CAN BE REUSED UNTIL WORN:**

the pre-treat mops can be used even 7-10 days after preparation, as long as the bucket is sealed at the end of work; this means that they can **BE EASILY TRANSPORTED IN THE BUCKET FROM ONE SITE TO ANOTHER FOR SEVERAL DAYS.**

ROLLER / RULLY

CODE
STRI00007

● 0015 ● 0002
● 0009 ● 0004

ROLLER / RULLY PRESS

bottomless, has been studied for washing flat mops (ideal for microfiber mops). Its roll is soft and it is thought for wide working area to obtain uniform results. The automatic return of the handle ensures maximum comfort for the operator.

CLEANING TROLLEYS RANGE /

BRIX HOTEL

BENEFITS AND FEATURES

FOLDING BAG SUPPORT

- ▶ **Maximum compactness:** ideal in places where a small trolley is required without renouncing the complete service
- ▶ **Space saving:** allows a reduction of 210 mm of the overall dimensions of the bag holder
- ▶ **Strong:** guarantees solidity and robustness to the entire trolley

WHEELS

- ▶ **Maximum smoothness:** thanks to the ball bearings which means less effort from the operator while moving.
- ▶ **More accurate directionality:** the wheels support the direction to the trolley with little steering effort
- ▶ **Easy steering:** double ball bearing swivel head that considerably reduces the effort required by the operator
- ▶ **Quiet running:** thanks to the materials used and the high quality bearings that make the wheels silent on each surface
- ▶ **Low vibration:** soft compounds with good dampening properties
- ▶ **Non-staining and non-marking:** they do not stain on contact with floors during long standing periods

DOORS

- ▶ **Impact resistant:** withstands impact with blunt objects without damage
- ▶ **Resistant to wear:** their density makes them resistant to scratches
- ▶ **Resistant to light:** they do not suffer from UV ray damage and are not subject to discoloration
- ▶ **Heat-resistant:** temperature changes do not affect the properties
- ▶ **Antistatic:** do not attract dust on surface

PACKS

IPC – CLASSROOM CLEANING KIT

CODE
KTRI06259 0005

IPC has created a kit for the daily cleaning of classrooms.

It's composed by microfiber cloths, microfiber pads, a hand pad holder, a sealed watertight bucket with lid and a 6 l bucket.

Kits can be prepared each day. Simply pour your cleaning and sanitizing solution over the microfiber, seal the lid on the bucket and turn it upside down to pretreat the pads and cloths.

GLASS WINDOW PACK

CODE
KTRI04728

A full pack dedicated to window cleaning. It includes a swivel strip washer and a stainless steel window squeegee, suitable to clean without effort the glass surfaces, eliminating drips and streaks.

The 22 l. bucket on wheels facilitates the transport of the equipment and the telescopic pole permits to reach the highest angles. A pocket scraper and a Vetrix cloth complete the pack.

Bags dimensions max
128x270 mm

MATERIAL
Stainless Steel

DIMENSIONS
L x L x h
mm 130x45x270 h

UNIT BOX
1

RAFFAELLO TERRA

CODE
CONT00007

MATERIAL
Stainless Steel

DIMENSIONS
l x L x h
mm 240x240x390 h

DETAILS
· Hanging on floor

UNIT BOX
1

TERRA INOX PLUS

CODE
ACBA00002

MATERIAL
Stainless Steel

DIMENSIONS
ø x h
Ø 100x350 h

DETAILS
· Hanging on floor

UNIT BOX
1

GIRONET

CODE
ACBA00001

MATERIAL
Polypropylene

DIMENSIONS
l x L x h
mm 112x120x390 h

DETAILS
· Hanging on wall/ floor

UNIT BOX
12

FRAGRANCE DIFFUSER

CODE
ACBA00125

DIMENSIONS
l x L x h
mm 75x85x210 h

UNIT BOX
1

SALES TERMS AND CONDITIONS

Purchase orders placed to IPC TOOLS S.p.A. are submitted to the ongoing sales terms and conditions, except otherwise agreed between the Parties in each specified contract.

1. IPC TOOLS PRODUCTS:

- a. All products manufactured by IPC TOOLS S.p.A. conform to safety and quality standards and are suitable for their proper use.
- b. Technical specifications, descriptions and pictures related to various products listed herein are purely indicative and IPC TOOLS S.p.A. reserves the right to amend such information in the case any change is considered necessary.
- c. Volumes and weights provided herein refer to standard single package quantities.

2. PRICES

- a. All prices herein do not include VAT and delivery terms are EX Works Villa del Conte (INCOTERMS 2000).
- b. The prices herein are valid unless otherwise specified.

3. PURCHASE ORDERS

- a. All purchase orders are "subject to approval by seller".
- b. Minimum amount per order accepted is € 500,00, VAT not included.
- c. All quantities in the purchase orders shall refer the standard single packing.
- d. Each purchase order shall include product code and description.

4. PACKAGING

- a. Packaging is included in the list prices.
- b. For mop wringers packed separately from the trolley, an extra-charge of € 1,200 will be added.

5. PAYMENT:

- a. The Client undertakes to pay for the goods in accordance with the terms agreed with IPC TOOLS S.p.A. and indicated in the invoice.
- b. In case of expired and delayed payments the interest shall be calculated at the current rate.

6. TRANSPORT

- a. Transport duties are at Client's expense, unless otherwise agreed between the Parties.

7. DELIVERY TIMES

- a. Delivery times are not compulsory.
- b. A delay in delivery shall not be cause of any delay in payment or request for damages.

8. NON-COLLECTION OF GOODS

- a. Non-collection of the goods of Client's purchase orders within a period of thirty days from the date agreed, shall allow the seller to cancel the contract "ipso iure" and any payment received in advance shall be withheld by the seller, as penalty, except the case of an heavier loss.

9. SALES RETURNS

- a. All returns are subject to prior approval by IPC TOOLS S.p.A.
- b. Once the returns are authorised, they shall be returned free of damage and in the original packaging.
- c. All transport costs to return the goods are at the Client's expense.

10. IMPROPER USE OF PRODUCTS

- a. IPC TOOLS S.p.A. shall not be liable for any damage caused by or to the products due to improper or incorrect use of the products, non-compliance with the provided instructions, lack or inaccurate maintenance, tampering or alteration of the products.

11. CLAIMS

- a. Once the goods have been delivered at his premises, the Client shall check and inspect them: any remarks or comments related to damages or missing items shall be made at the moment of delivery to the carrier and mentioned on the delivery note.
- b. Any product defects shall be notified in writing to the seller (sent by fax or e-mail) within the times described by the law in force.
- c. Claims received verbally or on the phone shall not be considered as valid.
- d. No product may be returned without prior authorisation by IPC TOOLS S.p.A. (refer to clause Sales Returns)

12. APPLICABLE LAW AND COMPETENT COURT

- a. Any dispute or controversy arising from this contract or transactions hereunder shall be submitted to the sole jurisdiction of the Court of Padua, Italy.

13. PRICE LIST

- a. The price list hereby cancels all previous price lists.

14. ACCEPTANCE OF SALES TERMS AND CONDITIONS

- a. The Client expressly agrees to all the sales terms and conditions herein once he places a purchase order.
